

**OptumHealth Education's 23rd Annual National Conference  
Preconference Tour  
Northwestern University Affiliated Transplant Centers  
Wednesday, September 10, 2014**

**Agenda**

- 8:00 a.m. Preconference Sign in—Marriott Hotel Main Lobby, Michigan Avenue Entrance—Top of the Stairs**
- 8:10 a.m. Depart from Hotel Lobby for Northwestern Memorial Hospital** (*Approximately a 10-minute walk*)  
Northwestern Medicine Arkes Pavilion, 676 N. Saint Clair Street, 6th Floor, Department of Surgery Video Conference Room
- 8:30 a.m. Complimentary Continental Breakfast**
- 8:30 a.m. Welcome**, NUATC Representatives: *Greg Ciaciura, Manager, Transplant Program Development, Kovler Organ Transplantation Center, Northwestern Memorial Hospital; and Bernie Chrobak, MSN, MBA, RN, Ann & Robert H. Lurie Children's Hospital of Chicago*
- Transplant Program Highlights**, (*non-accredited*), *Michael M. Abecassis, MD, MBA, Northwestern University Feinberg School of Medicine*
- 8:45 a.m. Minimally Invasive Live Donor Hepatectomy—Translating an Experience With Liver Resections**, *Talia B. Baker, MD, Northwestern University Feinberg School of Medicine*  
Dr. Baker will discuss the benefits of minimally invasive liver surgery and will provide an overview of living donor liver transplantation.
- Learning Objectives:
- Describe the current state-of-the-art procedure for minimally invasive live donor hepatectomy along with the outcomes.
  - State the challenges facing live donor liver transplantation.
  - Discuss innovative strategies that can potentially overcome challenges with live donor liver transplantation.
- 9:15 a.m. Living Donor Liver Transplant: Patient Panel**, *Katie Rosenfeld (Mom) and Liv Keagle (Daughter)*  
Katie Rosenfeld recently donated part of her liver to her two-year-old daughter, Liv, and several years ago her oldest daughter, Macy, received a liver transplant from a deceased donor. During this session, Katie will discuss the transplant recipient's viewpoints and experiences, and will provide insight from a mom's personal perspective between the live and deceased donor transplant experience.
- Learning Objectives:
- Discuss liver transplant from the viewpoint of the patient.
  - State the challenges facing pre- and post-liver transplant.
- 9:45 a.m. Facility Tour: Northwestern Memorial Hospital** (*non-accredited*)  
Take advantage of this opportunity to get an inside look at one of the nation's top transplant programs. The Northwestern Memorial Hospital tour will provide an opportunity to view the in-patient transplant unit and out-patient transplant clinic, as well as to speak with clinical staff about the transplant process.
- 10:45 a.m. Facility Tour: Ann & Robert H. Lurie Children's Hospital** (*non-accredited*)  
NUATC is excited to offer you the opportunity to tour the Ann & Robert H. Lurie Children's Hospital of Chicago—formerly Children's Memorial Hospital—a superior pediatric transplant facility that offers the latest benefits and innovations in medical technology and research within a family-friendly environment.
- 11:30 a.m. Depart Ann & Robert H. Lurie Children's Hospital**
