About Us

OptumHealth Education is one of only 17 jointly accredited organizations in the world, having been simultaneously accredited to provide medical, nursing, and pharmacy continuing education activities by the ACCME, ANCC and ACPE. We are dedicated to providing interprofessional education that leads to improved health care delivery and better patient outcomes.

OptumHealth Education works to foster lifelong learning partnerships with collaborative health care teams who seek to advance their knowledge, skills, and competencies relevant to their clinical practice.

We are committed to providing education that is independent, free from commercial bias, based on valid content, and effective in improving the quality and safety of care delivered by health care teams worldwide.

OptumHealth Education and UPMC are working together to provide attendees with in-depth knowledge of live-donor transplantation, immunosuppression optimization, transplant-related challenges, bridges to transplant via VAD and ECMO, intestinal rehabilitation and transplantation, and more.

An Invitation to Exhibit

University of Pittsburgh Medical Center (UPMC) transplant programs are internationally renowned for their influence in the field of transplantation. For more than 30 years, UPMC has been providing care to adult and pediatric transplant patients through services at the Thomas E. Starzl Transplantation Institute, the UPMC department of cardiothoracic surgery, Children's Hillman Center for Pediatric Transplantation, and UPMC CancerCenter. Today, UPMC has performed more than 17,500 adult and pediatric solid-organ transplants, including heart, lung, intestine, kidney, liver, pancreas, and multi-organ transplants, along with heart assist device implantation. Our program comprises experts in the UPMC CancerCenter, which is accredited by the Foundation for Accreditation of Cellular Therapy (FACT) in both autologous and allogeneic stem cell transplantation, and we perform close to 200 stem cell transplants each year.

"A History of Transplant Excellence, A Future of Innovation" is designed for physicians, mid-level providers, nurses, case managers, medical directors and all other health care professionals with an interest in adult and pediatric transplantation for solid organ- and blood/marrow transplant.

OptumHealth Education invites you to take advantage of the conference via exhibit display and meet face-to-face with this audience of clinicians, coordinators, medical directors, and other health care professionals.
