

TOPIC	DAY 1	DAY 2
Advances in Medicine: What Does the Future Hold?	0.5	
Airway Disease - Reconstructive Surgical Innovations in the neonate	0.5	
Transplant Research/Tolerance: The Holy Grail	0.5	
New Horizons in Lung Transplant: Ex Vivo Perfusion	0.5	
Waiting for a Liver Transplant: Living Donation	0.5	
When Is the Right Time? Referring Patients for Preemptive Kidney Transplant in the Pediatric and Adult Populations	0.5	
Immunosuppression Withdrawal in Pediatric Liver Transplant Patients	0.5	
Long-Term Renal Outcomes Among Pediatric Solid Organ Transplant Recipients	0.5	
Innovative Approaches to Tackling Nonadherence in the Adolescent Solid Organ Transplant Recipient: From Family to Facebook	0.5	
An Overview of Stem Cell Transplantation (SCT)	0.5	
Supporting the Needs of Adolescent and Young Adult (AYA) Cancer Patients	0.5	
Innovations in Childhood Cancer: What's New, What's on the Horizon	0.5	
Hepatocellular Carcinoma (HCC): Incidence, Options and Outcomes	0.5	
Proton Therapy for the Treatment of Cancer in Adults	0.5	
Proton Therapy—Precision Therapy to Protect Children	0.5	
Advances in Catheter Diagnosis and Treatment for Congenital Heart Disease: XMRI and Percutaneous Pulmonary Valve Therapy		0.5
The Patient With Single Ventricle Type of CHD: Challenges and Opportunities From Fetal Stage to Adulthood		0.5
Mechanical Circulatory Support in Children		0.5
Adult Congenital Heart Disease: Challenges in the 21st Century		0.5
In Vitro Fertilization (IVF): Methods to Prevent Multiple Births		0.5
Placental Complications in Identical Twins		0.5
Spina Bifida: From Problem to Practice		0.5
Thyroid Cancer in Children and Adolescents: Beyond Survival		0.5
Minimally Invasive Surgery in the Neonate		0.5
Bariatric Surgery: A Viable Option for Severe Obesity?		0.5
Chronic Lung Disease in the Neonate: Can We Tame This Wild Horse?		0.75
Total Day 1	7.50	
Total Day 2		5.75
Conference Total	13.25
