

Common polyneuropathy codes

Just in time

Polyneuropathy codes		
ICD-10	Description	HCC
G60.9	Hereditary and idiopathic neuropathy, unspecified	
G61.0	Guillain-Barre syndrome	75
G61.9	Inflammatory polyneuropathy, unspecified	75
G62.0	Drug-induced polyneuropathy (use additional code for adverse effect, to identify drug)	75
G62.1	Alcoholic polyneuropathy	75
G62.2	Polyneuropathy, due to other toxic agents (must identify toxic agent in documentation – example polyneuropathy due to ethanol)	75
G62.81	Critical illness polyneuropathy	75
G62.82	Radiation-induced polyneuropathy	75
G62.89	Other specified polyneuropathies	
G62.9	Polyneuropathy, unspecified / Neuropathy NOS	
G63	Polyneuropathy in diseases classified elsewhere (code first underlying disease like metabolic disease or neoplasm) (this code excludes polyneuropathy in diabetes)	75
Diabetes with neurological complication codes		
E08.40	Diabetes mellitus due to underlying condition with diabetic neuropathy, unspecified	18
E08.41	Diabetes mellitus due to underlying condition with diabetic mononeuropathy	18
E08.42	Diabetes mellitus due to underlying condition with diabetic polyneuropathy	18
E08.43	Diabetes mellitus due to underlying condition with diabetic autonomic (poly)neuropathy	18
E10.40	Type 1 diabetes mellitus with diabetic neuropathy, unspecified	18
E10.41	Type 1 diabetes mellitus with diabetic mononeuropathy	18
E10.42	Type 1 diabetes mellitus with diabetic polyneuropathy	18
E10.43	Type 1 diabetes mellitus with diabetic autonomic (poly)neuropathy	18
E11.40	Type 2 diabetes mellitus with diabetic neuropathy, unspecified	18
E11.41	Type 2 diabetes mellitus with diabetic mononeuropathy	18
E11.42	Type 2 diabetes mellitus with diabetic polyneuropathy	18
E11.43	Type 2 diabetes mellitus with diabetic autonomic (poly)neuropathy	18
Related codes		
M05.59	Rheumatoid polyneuropathy, with RA of multiple sites	40 & 75
M05.50	Rheumatoid polyneuropathy with rheumatoid arthritis of unspecified site	40 & 75

Note: If a patient has multiple conditions which may be causing the neuropathy, it is appropriate to document for each condition. For example, a patient with polyneuropathy and diabetes and hypothyroidism would be documented as type 2 diabetes mellitus with diabetic neuropathy (E11.42) and polyneuropathy due to hypothyroidism (G63 polyneuropathy in diseases classified elsewhere and E03.9 hypothyroidism, unspecified).

The ICD-10-CM code book and the Official Guidelines for Coding and Reporting are the authoritative references for accurate and complete coding. The information presented herein is for general informational purposes only. Specific documentation is reflective of the “thought process” of the provider when treating patients. All conditions affecting the care, treatment or management of the patient should be documented with their status and treatment, and coded to the highest level of specificity. Enhanced precision and accuracy in the codes selected is the ultimate goal.
